## SUMMARY

Full-stack professional with 4 years of experience in backend optimization and full-stack development, expert in React and Node.js. Key achievements include the successful leadership of a payment module development generating ₹60 crore in revenue and ensuring 100% requirement accuracy for project alignment at Deloitte. A Senior Full Stack Software Developer position is sought at the innovative R&D company based in Germany, part of a global biotechnology company, where backend optimization and full-stack development skills will be leveraged to support your mission of creating scalable software solutions to enhance patient selection for cancer immunotherapy.

## SKILLS

### Front-end

ReactJS · Next JS · React Native · HTML · Typescript · JavaScript · Vue · Angular · CSS · Tailwind · Bootstrap · RESTful APIs · Git · GitHub · Redux · SPA

### Back-end

Python · Django · Typescript · JavaScript · My SQL (RDBMS) · Azure · No SQL · AWS · MicroServices · GitLab · Nginx · IAM · Postgres SQL · Mongo DB · Express JS · SQLite

### Dev-Ops and OS

Docker · Linux · Windows

## KEY ACHIEVEMENTS

### Revenue Boost

Increased revenue by INR 6 crore in 2023 through leading a payment module project.

### Reliability Enhancement

Enhanced software reliability by 25% with backend optimization using Node.js.

### Project Precision

Ensured 100% requirement accuracy in project alignment at Deloitte.

### Effective Mentorship

Mentored 2 interns, improving dashboard project delivery time by 20%.

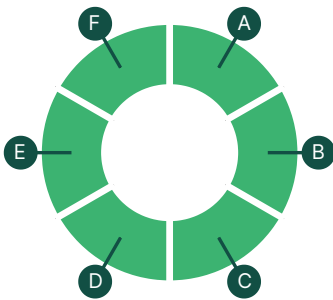

## STRENGTHS

- **Backend optimization proficiency**  
Expertise in optimizing backend systems for enhanced performance and scalability.
- **Strong leadership ability**  
Skilled in leading teams to achieve project goals effectively and efficiently.
- **Technologically versatile**  
Adept in a wide range of technologies and adaptable to new ones quickly.
- **Operational efficiency driver**  
Proven track record of increasing operational efficiency through agile methodologies.

## EXPERIENCE

### Deloitte

Consultant

Bengaluru,  
Karnataka, India  
11/2023 - 07/2024

- **Titan Project:** Improved project alignment with client goals by ensuring 100% requirement accuracy during the discovery phase.
- **VGuard Project:** Designed and implemented core modules, API's, including a real-time **notification engine**, **attendance tracking** system, and **expense management** feature, improving user experience and operational efficiency by agile methodology.
- **Documented and supplied** all projects and development processes thoroughly to ensure clarity, knowledge transfer, and ease of future maintenance.
- **Collaborated** with multiple teams for seamless integration of other system.

### BHIVE Alts

Full Stack Developer

Bengaluru,  
Karnataka, India  
06/2022 - 11/2023

- **Developed BHIVE Alts App:** Solely built and launched an investor-focused app, driving user engagement and supporting company growth.
- **Project Lead for Payment Module:** Led development of a payment module, which achieved revenue generation of INR 6 crore.
- **Tech Stack Optimization:** Advised on improvements to the tech stack, enhancing app performance and reliability.
- **Supervised and mentored** 2 interns on an internal dashboard project, ensuring timely delivery and skill development.

### Webbirth

Software Engineer

Bangalore Urban,  
Karnataka, India  
09/2021 - 06/2022

- **End-to-End Mobile App Development:** Designed and developed all core aspects of e-commerce mobile applications using React Native and Flutter, including user authentication, product listings, cart functionality, and payment integration.
- **Enhanced solution** reliability by 25% through leading backend development with Node.js and Laravel.
- **Adaptable in Diverse Stacks:** Worked across multiple technologies to meet varied client requirements in a dynamic startup environment.
- Oriented and planned the release of multiple projects keeping the team motivated.

### Civil Engineering System

Full Stack Developer

Bangalore Urban,  
Karnataka, India  
06/2020 - 07/2021

- **Supported development** and testing of in-house applications, focusing on PHP-based backend services and frontend development with React and theming using Bootstrap.
- **Contributed** to UI/UX design to improve the customer-facing platform.
- **Fostered** a collaborative team environment by promoting knowledge sharing, code reviews, and open communication.
